***Forbes to participate in groundbreaking of new Magellan
plant in Chesterfield***

Washington, D.C. – Congressman J. Randy Forbes (VA-04) will participate in a groundbreaking ceremony to celebrate the construction of a new Magellan Systems International, LLC facility. The new plant will produce a cutting-edge, high-strength fiber called M5™, and ultimately bring up to 200 high-technology research and manufacturing jobs to the region.

Date: Thursday, August 14

Time: 2:00 p.m.

Location: 8310 Shell Road, Chesterfield County

Forbes will be joined by County Administrator Lane Ramsey, and County Supervisors Art Warren and Jack McHale in breaking ground for this new facility.

“This plant is wonderful news for Chesterfield County and its efforts to attract new jobs to the region,” said Rep. Forbes. “Research and manufacturing firms create high-wage, high-tech jobs that are especially valuable during these tough economic times.”
